WICHITA, August 20, 1892.
The cattle week just closed has been a good one. Cattle have been selling at good, steady prices all week and the receipts have been an improvement over previous weeks. There were more sales made this week than any time this summer. Some extra good butcher cows would come in today just now and would sell at strong prices. The yards were cleared this evening, leaving a clear field for next week.

The quotations here presented are to give the general range of prices. The various classes and grades sell within the limits of those quoted. The market is subject to the state of the daily markets. These quotations are only changed when there has been a change in the general market.

The representative sales should be referred to for the daily quotations.
